CSB-2017-000002	Horowitz, Jay (Yair)	CSB has created a number of animated videos depicting various industrial incidents. I am fairly certain that I have viewed all that are publicly available. In certain of those videos CSB includes a portion of CCTV, surveillance, or other footage of the actual incident. Related, CSB has posted a number of videos which consist solely of non-animated incident footage, although some are posted to YouTube as "unlisted" and are only available to those who have the video link. (Video links to some unlisted videos are available on the CSB website.) I request an electronic copy, in only the highest resolution available, of all incident video footage in possession of the Chemical Safety Board. Please include: hyperlinks to all "unlisted" CSB YouTube videos a copy of all CSB videos which have been posted to YouTube as "private" the complete original footage used in the creation of all CSB animated videos any and all video footage capturing incidents, accidents, spills, releases, etc. which CSB has been made aware of or investigated. Please include all responsive (video) media created by CSB employees in the course of business, whether through the use of government-issued or personal devices, as well as media received by CSB, such as CCTV files...As available, I request footage in the least-edited form av Regarding non-digitized incident footage, such as VHS or Betacam, if CSB possesses such records I request only a list of them...(See request for the rest.)	09/20/2017	-	-	-

CSB-2018-000008	Horowitz, Jay (Yair)	<p>This is a request for records under the Freedom of Information Act. It is similar to and also differs significantly from request R17-054. I request an electronic copy of the records described below:</p> <p>Background: CSB has created a number of animated videos depicting various industrial incidents. I am fairly certain that I have viewed all that are publicly available. In certain of those videos CSB includes a portion of CCTV, surveillance, or other motion picture footage of the actual incident. Related, CSB has posted online a number of videos which consist solely of non-animated incident footage. Of those, some are posted to YouTube as "unlisted" and are only available to viewers who have the video URL. (Video links to some unlisted videos are available on the CSB website, though no mention is made of the videos privacy settings.)</p> <p>I request an electronic copy, in the highest resolution available, of all incident video footage in possession of the Chemical Safety Board. Please include:</p> <p>Hyperlinks to all "Unlisted" CSB YouTube videos</p> <p>All CSB videos which have ever? been posted to YouTube as "private" and which are currently not publicly available</p> <p>Any and all non-animated footage used in the creation of all CSB animated videos</p> <p>Any and all video footage capturing incidents, accidents, spills, releases, etc. which CSB has been made aware of or investigated. I request such footage even if the event it depicts was ultimately determined to not be within the purview of CSB.</p> <p>Please include all incident and incident-related videos created or received by CSB employees in the course of their employment, whether through the use of government-issued or personal devices, as well as any digital media received by CSB, such as CCTV or surveillance video files. CSB-2020-000003	(b)(6)	<p>I have three family members who pass away and people who live within the same co-op has come up with Cancer, I myself was told that I have Stage Four Cancer. That's when the Red Flag went up, (b)(6) sent out a message over a year to 2-years ago that it's a chance Asbestos may be in the co-op. We just had a police officer pass away last week from Brain Cancer, my brother pass away with Brain Cancer, my sister just pass away with a Blood Disorder, I am still for the outcome of that, maybe you could make them move faster, right next door to my sister a young man pass away with Brain Cancer, other person has eye cancer, and like I said I have Stage Four Cancer, all of us has lived there for over 10-years are more. I have been in a court fight with them for many years now, I just knew that I was not that important to fight over, so if i am right this is why they wanted to keep me off the property so bad, it was so bad that they had me arrested in my own living room and I have a court order sign by a Judge to be there. CSB-2020-000018	Ayele, Michael	What a first impression, a letter can make! When I don't know, I say "I don't know" and ask questions. When a description of events and/or circumstances is unclear, I do the same: I ask questions. Details remain unclear if such is the method of employees and legal representatives of the Chemical Safety and Hazard Investigation Board (CSB). Based however, on e-mail correspondences previously exchanged, the evidence suggests not. Details remain unclear if employees and legal representatives of CSB are capable of a thoughtful response instead of making insinuations and characterizations about Freedom of Information Act (FOIA) requesters mental health. Based however, on e-mail correspondences previously exchanged, the evidence suggests not. Not once, in letters previously exchanged have employees and legal representatives of the CSB said: "CSB is an equal opportunity employer." Details remain unclear if CSB have asked the following questions too. "Hey, there is a person who says he has worked for the Missouri Department of Mental Health located 600 East 5th Street, Fulton, MO between May 07th 2013 until December 20th 2013 and was witness to discrimination. Has he? Was he? Has he really filed a charge of discrimination with the Equal Employment Opportunity Commission (EEOC) and the Department of Justice (DoJ) Immigrant and Employee Rights Section? Does this person have health insurance?" Based on e-mail correspondences previously exchanged however, the evidence suggests not. In my individual capacity as the founding member of the Association for the Advancement of Civil Liberties (AACL), who has thoroughly read the complaint which was filed by the United States Women Soccer Team in the State of California, I have found it to be clear and concise. Details remain unclear if the same could be said about employees and legal representatives of CSB. Though I have attached the complaint, details remain unclear if they have previously read it or even understood it.	04/03/2020	05/01/2020	Other Reasons - Improper FOIA Request for Other Reason	D(6)

CSB-2020-000026	Holcomb, Michael	We have noticed that many brokers and companies are allowing the import of chemicals that do not comply with the Toxic Substances Control Act Certification under the Remote Location Filing Prototypes and Electronic Invoice Program. We would like to work with brokers to allow them a better opportunity to understand the implications of filing inaccurate reports. However, we cannot afford to click on the list you provide on the computer since it is not cost effective for our staff to extract the information for the over 14,000 brokers. Our FOIA request is we would like a lists of all licensed brokers by port in the readable Excel or Word format. It is our goal to stop the import of products that do not comply with TSCA. As you are aware "Under the statutory mandate of Section 13 of the Toxic Substances Control Act (TSCA 13), the Secretary of the Treasury shall refuse entry into U.S. Customs territory to any chemical substance, mixture, or article which fails to comply with any rule, order or civil action in effect under TSCA. The Secretary of the Treasury has promulgated a final Customs rule under TSCA 13 at 19 CFR Sections 12.118 through 12.127, and 127.28 (amended). At 19 CFR 12.121 and 40 CFR 707.20, importers of chemical substances in bulk or mixtures are required to certify that the shipment either complies with all applicable rules and orders thereunder, or is not subject to TSCA." TSCA should be enforced and companies should pay the criminal fines of up to \$32,500 for each day the violation continues and/or imprisonment for up to one year.	05/08/2020	05/25/2020	Other Reasons - No Records	D(1)

CSB-2020-000051	Ayele, Michael	On page 180 - 181 of Robert Mueller's report, it's noted that the "Foreign Agents Registration Act (FARA) generally makes it illegal to act as an agent of a foreign principal by engaging in certain (largely political) activities in the United States without registering with the Attorney General. (...) The investigation uncovered extensive evidence that Paul Manafort's and Richard Gate's pre-campaign work for the government of Ukraine violated FARA. Manafort and Gates were charged for that conduct and admitted to it when they pleaded guilty to superseding criminal informations in the District of Columbia prosecution. (...) . In addition, the investigation produced evidence of FARA violations involving Michael Flynn. Those potential violations, however, concerned a country other than Russia (i.e., Turkey) and were resolved when Flynn admitted to the underlying facts in the Statement of Offense that accompanied his guilty plea to a false-statement charge. (...) Finally, the Office investigated whether (...) George Papadopoulos - acted as an agent of, or at the direction and control of, the government of Israel." (...) CSB-2020-000078	Crawford, Annalieze	I am requesting information on the conspiracy theory regarding Chemtrails. According to my research, Chemtrails are a supposedly toxic trail of clouds left by planes. People concluded that the government was polluting the air with chemicals that had an effect on population control, weather experiments, and global warming improvement. I found that this conspiracy started to trend in the 90's. There were some articles and such published assuring Americans that these 'Chemtrails' were fake and there was no reason to worry. But these articles only proved to make the conspirators even more suspicious. Although only 5% of Americans support this claim, I find it very interesting and want to know more on the topic.	01/06/2020	02/05/2020	Other Reasons - No Records	D(1)

CSB-2021-000011	(b)(6)	As chair of homeland Security, I have been getting hypnotherapy of the Skull badly for Funds offshore and a name change in order to be like her with my wife that is Amal Clooney, the daughter a man name ortega. JAmsho is not obama, JAmsho isJamshid learning what Shams must do in her spare time. I am used to sleeping with women of prestige and she is one. I have stolen Three items from her and they don't fit my wife. I will put them back only if she loves me for who I am . And then the Gate opened here and it was GeorgeW.Bush and obama. She is and I are not the Gate, she is under duress of the rreveluionary Guard as the one that entered the port with Clintons as those that are fatherless with her wanting guardianship, in order to make her like my mother who was her principal in John Adams. I am that one also in Beverly high always in front one foot and the other for one girl and the other. This is is her and also despise for the issues of one In love with his wife as Saman becomes a foe and so do all the pahalvi's he is effective immediately he is the one the family has spoken to and know the issue of Hattaress with our immediately. Further, my parents love our Girl. It's them she loves and it's the other she despises with one of Ortho becoming a foe badly for the Clintons, the Rehnieers, the Kenned's and also the Clinton Baby and Redfords in treatment, We need resolve and she is now entitled to a grand jury trial to discuss the gate with Two men, Obama nd also George doing it here making sure she was safe and then giving her hypnotherapy in order to safeguard her in places she goes to under her authority.	11/16/2020	03/18/2021	Other Reasons - Records not Reasonably Described	D(5)
CSB-2021-000012	Haaland, Rheanan	To whom it may concern, I am requesting any relevant information regarding the use or testing of aerosolized tularemia. The high infectivity rate of the pathogen F. tularensis warrants its categorization as a class A threat by the Department of Homeland Security. However, in the interest of science and public health, as an aspiring physician, I would like to obtain any additional information available. Any information provided will be used exclusively in the setting of an academic research paper in microbiology for Northwestern Health Science University in Minnesota. If there are incidents or documents testing the threat of weaponized tularemia, or similar pathogens prompting pneumonic symptoms, they would be of great use. I am especially interested in the infectivity statistics of anyone involved versus the concentration of pathogen used, as well as the distribution mechanisms that allowed such an event to occur. While I have obtained a reasonable amount of relevant information via the publicly available CDC and department of homeland security websites (alongside a plethora of medical research articles on particle aerodynamics and on the pathogen itself), if there are additional incident reports or mitigation strategy plans, I would be very interested in obtaining such documents. The aim of this research paper is to help prevent, or minimize potential catastrophe in future bioterroristic attack from the standpoint of public health administrators at all levels. It is her husband that is spoken to with only one man and that knows he and Takhti had plagiarism in Iran both trying to take her accounts and they have it, using it for treatment facilities they both want. she does not know and it's me writing as one that knows her demeanor is charged when One is trying to be whole with us and I am Robert Redford writing the issues in paper as she is writing her issues with us knowing the issue is not Trump or pacino but it's both of them having her Signatures.	11/30/2020	03/18/2021	Other Reasons - Records not Reasonably Described	D(5)
CSB-2021-000027	Kruft, Rick	I'd like you to investigate the dumping and burial of harmful/toxic chemicals by RDO In the Park Rapids Mn Area. It is a facility south on Highway 71 about 1 mile from Park Rapids, MN. It where the cut their seed potatoes. I was informed that some years ago they buried and destroyed the containers in the ground with a big bulldozer D10. The supposed content of the containers were of the likes of the Agent Orange chemical. I believe the information to be from a reliable source and am concerned of the damages this may have on the fishhook river and our underground water supplies. I also wish you would address their pollution of our ground waters with the fertilizers they have been using. There has to be a better way to fertilize and produce their products without doing damage to our environment! The issue is a steel company owned by her and her Brothers and Warrens and also as Delano's and the ones that know her as one butterfly also know the main man that has shadowed her all his life is Obama from Canada as one shadower name Neil, he likes coldplay y and he was one that spoke to her on the phone not sexual and he has been shadowing her from England and also from France as well as Italy from England to France and also Paris perhaps but we know the shadower well as a woman as one who has lost her passports and also her documentations as intelligence the moment he found out she was a Warren Shaw. He wants her documents and also her prestige for only him and also his lover who knows the truth of his niece also. We are resting on the issue of him being gay and being with Delano badly as no Camelot and wants a camolt for Delano only. This has become the playing of a chess game with a woman that terrorized a woman in Iran with a Pink and blue towel shoes and he is obsessive and also a very dangerous man that burns in only Costa Rica as Clinton's son as only King George of King George Island angry as he is knowing the issue is the Kennedy's and knowing he wants justice for her and wants justice for his wife also as they are all in trouble with Two one with Bush and one with Trump knowing the Justice Department knows the issues are all with the Kennedy's and I Collins endorse mine as probation and also as Tarzana knowing she is my Aristotle Onassis Kennedy III knowing her issues are death only by one killer as a woman as Harvard is speaking Latin and I know	02/09/2021	03/15/2021	Other Reasons - No Records	D(1)

CSB-2021-000100	Robinson, Berea	I'm hoping you could give me any documentation of a Weapons Safety incident that occurred sometime in February/March 2019 when the 13th Aircraft Maintenance Squadron from Misawa AB, Japan was temporarily deployed to Anderson AB, Guam. I was a weapons team chief during this time, and we had an incident where one of the F-16s, on start-up, had an AIM-9X seeker head burst. I had directly handled pieces of the broken munition to prevent Foreign Object Damage to the F-16. The medical officer on the scene had taken down the names of the individuals who had been involved to have exposure to mercury placed into our medical records. I'm currently in the process of separating from the Air Force so I requested all of my medical records. Unfortunately, I could not find this documented anywhere. I'm seeking any sort of record of the incident.	04/29/2021	04/30/2021	Other Reasons - No Records	D(1)

CSB-2021-000196	Hammond, Robert	To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: FOIA MUCKROCK CSB 2021-A I am seeking one of the Agency's official record copies of OGIS response Hammond public comments 9 July 2021.pdf. OGIS response Hammond public comments 9 July 2021.pdf is a letter sent by the Director, Office of Government Information Services OGIS), National Archives Administration to Robert Hammond stating her position regarding Public Comments Posting. "[T]he Federal FOIA Advisory Committee reports to the Archivist of the United States. The Office of Government Information Services (OGIS) serves as the chair of the Committee, and OGIS staff provides administrative and logistical support." The Honorable David S. Ferriero is the Archivist of the United States. The Director, Office of Government Information Services has declined my request to post as my Public Comment the record, OGIS response Hammond public comments 9 July 2021.pdf, without providing any justification for doing so. The Agency's official record copy of OGIS response Hammond public comments 9 July 2021.pdf sent by the Director, Office of Government Information Services, National Archives Administration to Robert Hammond, documenting the Agency's receipt of that record, is of significant public interest. The OGIS Director's statement regarding there being no requirement to post public comments (that meet NARA's Posting Policy for Public Comments) appears to be contrary to both that policy and multiple statutes governing public meetings.	09/04/2021	10/06/2021	Granted in Full	-

CSB-2021-000198 APPEAL	Hunnicuttt, Marcie	I was denied access to approximately 8,910 records for the following reasons and am making a general appeal as follows to all exemptions: (1)On April 8, 2021 the Yenkin Majestic Paint Plant exploded. Any records that were available prior to the date of this event should still be available regardless of the Exemptions being claimed, as: a.It was previously available to the public and therefore will not impact the investigation whatsoever (Exemption 7); b.what information is being requested is not trade secret, financial, confidential or privileged information. Even so, if the information was publicly available before, then any trade secret protection has already been lost (Exemption 4); c.items prior to April 8, 2021 are not protected attorney work product, as they would have been publicly available before the incident (Exemption 5); (2)Regardless of the date of the records requested, not everything is attorney work product or inter-agency communications that fall under Exemption 5 (Exemption 5); (3)Regardless of the date of the records requested, personnel and medical files can be redacted such that personally identifiable information is not transferred. The point is to know whether safety issues occurred at the plant before and what level of seriousness (Exemption 6). Thus, the full denial of approximately 8,910 records is overbroad and I am requesting reconsideration as many of these records should still be available for the public.	08/23/2021	09/20/2021	Completely Affirmed	(b)(7)(A)

CSB-2022-000027	Irwin, David	I am a banker in Lincoln, Illinois. I have a loan request to be secured by property at 1405 Short 11th Street, Lincoln, IL. The appraisal came back with a question regarding the cleanliness of the property and sited a website called Enviromapper. The Enviromapper website listed a EPA registry ID number of 110005945184. In other communication with EPA I've learned that there was a record at EPA of RCRA ID ILR000022988 that suggests that a former owner of the property registered as a "small quantity generator". I also learned that in February of 2017 after visiting the sight the Illinois EPA changed the record for this site to "Not a Generator". My question is.....have there been any reporting of any hazardous waste or environmental issues associated with 1405 short 11th Street in Lincoln, Illinois? Can you confirm that the registry I note above regarding the "small quantity generator" was just one of reporting in a normal course of business by the owner at the time, and not one of a negative nature concerning the cleanliness of the property?	11/24/2021	12/22/2021	Other Reasons - No Records	D(1)

CSB-2022-000038	Yardis, Annie	I used to work at a school in New Canaan, CT 06840. Since then I have uncovered the school was built on a swamp, the swamp was filled with something. There is also a closed landfill across the street and there is a river that runs between the school and landfill. Kids and teachers are getting sick. Students and staff are developing "rare" illnesses. Students and staff have died. I am concerned for the health and safety of the people in the building. I also heard there is an old shoe factory that was torn down because of Mercury poisoning. AND there is a dry cleaner in town that has unsafe dumping sites. I inquired what they were doing and I was told that soil samples were being taken. My question is why? The owners are not talking! Are we on top of a landfill? Are the tenants here in any immediate danger? The tap water here is horrible and undrinkable! The smell and taste of chlorine is overwhelming! What is going on? Why are so much chemicals being used in drinking water? What is being camouflaged or hidden?	08/22/2022	-	-	-

I also smell a different kind of chemical in our water. These smells are causing headaches,throat burning, as well as a nauseous feeling. If there are no files about this area. Then I need assistance on getting this area checked out as soon as possible. I reported this to the state epa and the local as well. I was told there were permits broken in regards to the sewerage. I also spoke with a lab guy who made a meeting with the land lord here,but the landlord conveniently backed out when he came in contact with someone who had the covid. I'm not sure if this comes from agricultural runoff or leaking underground storage tanks,but something is very off around here and it's very bad for our well being as well as the development and well being of our children. CSB-2023-000034	Kemp, James	In a series of events it has come to my conclusion that it is a national security issue that requires immediate response to changes in legislation to the food and drug administration that the legalization of drugs is required to safeguard this nation. As a service combat veteran there is a stigma that mental health combined with substance abuse will adversely affect intelligence. It is only fair that American citizens should be able to capitalize off every product that affects the GPD. I am interested in speaking with Congress to present a report that will strengthen this nation border and provide the funds that will decrease the income inequality that disregards invisible consequences of over regulation in capitalism.	11/07/2022	05/18/2023	Other Reasons - Records not Reasonably Described	D(5)

CSB-2023-000074	(b)(6)	The unit began to have an unknown leak between the toilet and the bathtub. Numerous times, I had submitted a request to repair the issue, but because of Covid, the manager mentioned that the work order was behind. One day, while taking a bath, My older son said that water had leaked through the guest bathroom through the kitchen and Lightroom area. Maintenance came, dried the unit, and removed all the wood in the water-damaged areas. Once attempting to file with my rental insurance, the agent notified me that the manager on the side mentioned to the agent that the incident occurred due to the tenant (myself) falling asleep while the water was running. Once insurance denied the claim, I requested the property owner's information to discuss further a resolution in installing the unit with the same type of wood from prior. Soon after my team and others, the whole property began to have an infestation with roaches. I witness roaches rooming in the hallway of the property. At the beginning of March, the manager gave notice of a pet patrol coming to spray the property. Since then, I began to experience tiny black mold moths and yellow larvae showing in the kitchen, bathrooms, and rooms. I was also being bitten, and soon the matter began causing my children and self-health issues. The hospital provided an inhaler, cream for bite marks, and allergy medication nose spray. My pets as well have had problems like respiratory and skin rashes.	01/30/2023	07/13/2023	Other Reasons - Records not Reasonably Described	D(5)

CSB-2023-000164	Eswaraiah Lalithamma, Darshan	Hello, I'm writing regarding a property, Cypress Ave, Sunnyvale, CA - 94085. I wanted to check on if any tests were done at the above address since its located .25-.5 miles of the Tri-site superfund area as indicated by: https://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T1000005145 . It seems to be outside the offsite OU area identified North of the tri-site superfund site, but wanted to confirm if any tests were done to verify. Is there any other chemical exposure we should be aware of in the above address? Is there a machine/tester that we can buy to periodically check for any signs of contamination? Or a way to get the test done by a 3rd party to make sure its safe. This is of high importance as we have a toddler. Thanks	06/08/2023	-	-	-
CSB-2023-000165	Chen, Zhuo	EPA officer Greeting! I want report the transportation company and Chemical Liquid Tank Wash company: Diverse Transportation and Dana Tank Wash/Dana Transport always use falsification transport documents (Modified Dana Tank Wash Tickets) to deceive the Manufacturer and Shippers to get the transportation business,including transport Food Grade chemical liquid products,which is illegal ,violation and fraudulent, will cause serious safety and health risk, cause product quality issues and chemical contamination in Canada and US, because these two transportation companies has lots of Food Grade chemical liquid shipments. The reason I sent email to you,is because I checked on line ,the tank wash facility should be obtain the certificate and primarily governed by EPA in US. So could you please forward to me all of the Tank Wash /Cleaning requirement,Regulations,Industrail Standards etc. related documents? As the chemical liquid tank cleaning need lots of professional knowledge which I don't have. Sorry for I really need your help! As my Complain isn't for my personal request,it concern the public safety and health in Canada and US ,the artificial contamination from modified Tank Wash Tickets is potential serious risk for the Canadaian food and chemical industry,including worker's health, safety, product quality and transportation risks,I want do my best to find a solution. I had been searching some of regulations and industry standards about the chemical liquid tank wash cleaning certification,I found the Europe industry standard is much more stringent than Canada and US,their regulations definitely confirm "any alterations to these (last contain) product are considered falsification. " So I believe Canada and US need legal support to reject the contamination which from transport companies dishonest problem,we need to enact more stringent Regulations to monitor the Tank Wash Companies and transportation companies to prevent the wash ticket fraudulent.	06/12/2023	-	-	-

CSB-2023-000216	McMillan, Thomas	Sir/Ma'am, I am making a Freedom Of Information Act Request for an incident that happened in 1996. I am unsure about the date but believe the first to mid-year 1996. I was on active duty and worked in the LO structures shop in the building next to hangar T9. We were involved in LO maintenance operations on the B-2. Our day-to-day maintenance included using extremely hazardous materials and sanding operations using pneumatic sanders creating hazardous dusts resulting in hazardous waste products. We used brooms to sweep up the sanded heavy metal contaminates and materials, creating ingestible dusts. We were new to the B-2 and didn't realize how dangerous the materials actually were. As far as PPE is concerned, my issued respirator was the wrong size and continued to leak, which is officially documented in my medical records in several places and may have caused some medical issues that I am experiencing now. I am formally requesting a copy of the full report of the incident in reference to when Bioenvironmental came into our shop and performed random swipe tests for hazardous chemicals and over exposures. Our hangar was immediately shut down and all LO maintenance operations ceased in the hangar. Personnel were instructed to perform the maintenance in other facilities until the levels could be decontaminated and brought down to safe levels for personnel. All doors were secured and approximately 5 of us, to include me, were left to run our tool crib and control the use and distribution of our hazardous materials. The fire department even had our building marked on their base map with a skull and cross bones. It took a few months, but we ended up having to decontaminate our hangar, to include all the walls, floors, rooms, etc. We wore PPE, but I still had to wear my issued respirator that leaked and was the incorrect size. After that, a temporary wall and decontamination trailer was installed into the entry and exit of the contaminated hangar. I appreciate any help you can provide about the incident. Thank You for your time. I look forward to your timely response.	08/08/2023	-	-	-

And there were time constraints to get it done. Operator told PNC they had maybe 5 minutes to get it done. Operator-Myron had only partially closed the one valve when PNC got there. PNC thinks he didn't close that valve all the way, because he was going to shut off the compressor then finish. Operator instructed PNC to close the other two valves. Nothing was locked out or tagged. PNC closed the other two valves as instructed. After closing the valves, they started disconnecting hoses. That is when the incident happened. Pressure in the line blew out the hose, striking PNC in the face and knocking him back and to the ground. /	11/03/2023	-	-	-

CSB-2024-0075	(b)(6)	Honorable Specialists of Government! My name is (b)(6). Against me used WarfareChemical Agents for target to kill me. In Russia I was poisoned by Polonium many times because numbers changed to high; Hafnium, Niobium, "Novichok" . I have results of it. By this reason I got disability in 2012 by physical injuries. To save my life, I ran away from Russia. Every Country that I crossed with hope to stope violations against me, try to rote the me but it wasn't possible because person, who used it is famous and reach person. Law works for his money. I was sure that Konstitution and Criminal Law by US have more value and power than a money. I was poisoned in NYC near Airport "Guardian" (NYG 2 times and 2 times in Bus stop 10-11 February 2024. With symptoms : pain in stomach > caught > changed vision > pain in nerves my legs and arms I came to hospital. I got results of my blood test that by some points shower for Intoxication by Phosphate group. By confidentially consultations to Toxicologists , they told me guess of Warfare Chemical Agents that can be used against me. WCA is not in Civil use. To recognise it needs specific equipment, technology, knowledge in Military Toxicology. By this reason it impossible to find in regular blood test in Civil Hospitals. 2 days later I was poisoned again in Subway. With symptoms: Vomiting with blood, muscle cramps, changed vision, pain in some of liver, kidney I came for medical support to Hospital. Blood test was in Norma parameters. By my education I got curs "Criminal medicine " that includes "Toxicology". By my opinion must to be some way to proof or not proof guess I f Toxicologists. I have continually pain in legs, in arms, I lost my vision and hearing. I please You help me to find right way to make blood test for WCA.	03/27/2024	-	-	-
